

Our Struggle is for Life Campaign.

On January 8 and 9, 2022, the Caravan of Solidarity and Documentation with the autonomous Zapatista community of Nuevo San Gregorio was held, with the objective of documenting the aggressions, threats, and harassment perpetrated by the group of "The 40 invaders" against girls, boys, men, and women of the autonomous Zapatista community.

As a result of this Caravan, the organizations, collectives, networks, and individuals adhering to the Sixth Declaration of the Lacandon Jungle who participated, presented a report that accounts for the continuity of the aggressions against members of the Nuevo San Gregorio community, belonging to the Lucio Cabañas Autonomous Municipality, Caracol 10, Flowering the Rebel Seed, Good Government Council: New Dawn in Resistance and Rebellion for Life and Humanity, in the zone of Patria Nueva , territory recovered in 1994 by the EZLN.

With the intention of making more and more people aware of the war being waged against the Zapatista communities, we have decided to promote the Our Struggle is for Life campaign, which seeks to deploy our solidarity with the Zapatista communities and demand a halt to the war in the Nuevo San Gregorio community and other communities in resistance and rebellion.

We invite other collectivities and individuals to show their solidarity to this campaign during the month of January 2022, from their geographies and according to their ways and imagination.

OUR STRUGGLE IS FOR LIFE.

Solidarity with the Zapatista peoples.

Stop the war in Nuevo San Gregorio.
